C of C Sees Street Lights For All L.G.

A lighting district for the residential area of Lemon Grove is being explored by the L.G. chamber of commerce, president Robert Vaught told his directors Tuesday at the monthly board meeting.

If the district is formed, it will cost the homeowner about $1 a month for operation. There would be no cost for installing the lights, Vaught said.

If the project is pushed, a petition must be filed by landowners whose property represents 65 per cent of the assessed value of the district. It would require only the supervisors OK. No election is needed, Vaught said.

Dorothy Louer, formerly active in civic affairs was hired as chamber secretary and was in attendance at her first meeting Tuesday.

Barry Knudson, vice president and general manager of the Walker Scott Co., was made an honorary director of the chamber, replacing George Scott.

Charles Hesser, chairman of the road committee reported that Supervisor Bird had informed him that the improvement of Broadway from Kempf to Sweetwater and Kempf from Broadway to Lincoln had been budgeted and the streets would be widened this year.

Multi-Million $ Development Planned For Brookside Area

SAN DIEGO (CNS)—A multi-million-dollar residential and recreational development is planned on 37 acres in Brookside. Public hearing on the project, to be developed by Sam C. Harris and Associates, Lemon Grove property developers, will be held Friday by the County Planning Commission.

The area to be developed is bounded by Gold dr., Kenwood drive, Campo road, Broadway, Fairway drive and Birdie drive.

It is zoned for single family dwellings, with 6,000 square feet of area for a building site, and the zoning variances are sought to permit building closer to front and rear property lines than normally allowed.

The 'Stamp' Fights Back . . . Hurray!

If you got trading stamps with the prescription you bought lately, it is only because of the intrepid character of the S&H Green Stamp people who are determined not to let state bureaucracy encroach further on your way of economic life.

Sperry and Hutchinson Co., distributor of Green Stamps filed suit last week against the California Pharmacy Board challenging the Board's ban on issuing stamps on drug prescriptions. The suit also requests that the Board be permanently prevented from enforcing its ban.

The Board, apparently in its messianic belief that it can be all things to all ailing people, sought last year to prevent pharmacy advertising which compared prescription service. The howl that went up as a result encouraged the Pharmacy Board to back down. The Board complained that it only wanted to protect "ignorant and credulous people" from the enticement of advertising..

Under proposed rules the pharmacist would be a lawbreaker who put a sign in his own store saying "Our prescriptions are compounded of fresh drugs." The Board said it might make the "credulous" person believe that other druggists used stale drugs. The board's decision wilted when a more rational observer asked the Board to explain what would NOT sway an "ignorant credulous" person.

In the case of the stamps the Board is "interfering in purely business affairs of druggists and their customers" and is attempting to "limit free competition," according to the charge by the head of the S&H Stamp Co., J. G. Beinert. Harry Burris, local druggist said the Board's action is "vicious."

"State bureaus appear to be determined to make rules which aid discount houses at the expense of small, independent business firms," he said. "If government would spend more time developing fair trade rules many factors which disturb honest business would be dissipated."

TOMMY MARKLEY'S DROWNING SHOWS WISDOM OF BACKYARD SWIM PROGRAM HERE

The tragedy of the drowning of Thomas Markley Penery, 10 last week in Lemon Grove, points up the danger of water to children. Although Tom was a capable swimmer for a boy his age, the water still took his life. Many kids his age cannot swim a stroke.

The PTA-Red Cross Backyard Swim Program is designed to prevent children from drowning by teaching them to swim, by teaching them wise conduct around water. Do you have a swimming pool that you could donate for a few hours a week to the program? Do you wish to take part in the program in some way? If so, give Vini Sozzani at JU 3-2526 a call. She is area chairman of the program.

Mrs. Sue Wilson Funeral Held; Well-Known For Community Work

Mrs. Wilson

Funeral services for Mrs. Virginia Sue Wilson, 30, of 10171 Ramona dr., Spring Valley were held Wednesday of this week at Greenwood Mortuary. Interment was in Greenwood Memorial Park. Rev. Ernest Anderson, pastor of the Casa de Oro Baptist Church officiated. Mrs. Wilson passed away in a hospital June 2 after a lingering illness.

A native of Iowa, Mrs. Wilson had lived in San Diego County 20 years and resided in Oceanside before coming to Spring Valley. She had been a vice president of an Oceanside PTA group and during the 1959-60 and the 1960-61 terms had been president of the Casa de Oro Elementary school PTA, the first president of that group to serve more than one consecutive term.

SUPPORTED SWIM PROGRAM

Sue Wilson had been active in various types of community work. It was she who was responsible for getting the "Backyard Swim" program started in the Casa de Oro area. She was responsible both in Spring Valley and in Oceanside for getting polio and rabies clinics established. In Spring Valley she was responsible for getting the Casa de Oro people interested in getting a library for that area by forming committees and circulating petitions. She also made it possible to get people more interested in going to the polls on election day and to be better informed on all propositions and candidates. She also organized a car pool to take people to the polls.

Sue Wilson was also interested in the Scout movement and at one time was a Brownie leader and another time was secretary of the Brownies in the Casa de Oro area.

In school activities, Mrs. Wilson was vitally interested in a children's library, feeling that "children and good books go together." She helped to enlarge the Casa de Oro PTA library, which is at the school. In the library at the present time there are many books that have been donated and that the school district was unable to afford. Mrs. Wilson was also responsible for donations of books to the new Highland Avenue School PTA library.

Mrs. Wilson will long be remembered as the one responsible for having a Marine Color Guard appear at the Casa de Oro school and participate in a flag ceremony, at which time the old 48-star flag was retired and the new 50-star flag raised. At that time each Casa de Oro student was presented with a new flag, and Mrs. Wilson said she hoped that each year the kindergarten children would be presented a new flag at special ceremonies. Just this year on May 28 Mrs. Wilson attended the ceremonies where school children received their flags.

To further the interest of children in their country, Mrs. Wilson instituted an essay contest for the Casa de Oro students on the subject of "Good Americanism." And last but not least, she was responsible for a still active 6th grade tree-planting program.

Surviving Mrs. Virginia Sue Wilson are her husband, Richard; two sons, Michael and Timothy; a daughter, Dona Sue, all of Spring Valley; her parents, Mr. and Mrs. Witcraft of San Diego; and two brothers, Robert Witcraft of El Cajon, and Richard Witcraft of San Diego.

Helix Water Works Eyes 25% Budget Cut

A budget decrease of $1,668,518 from last year's budget of $5,816,962 was being considered this week by the directors of the Helix Irrigation district.

The proposed decrease results from reduced expenditures on the Chet Harritt Dam and because the district no longer operates Lake Murray. It amounts to a reduction of 25 per cent.

Byron Miller, general manager of the district submitted a budget of $4,148,444. It included $1,609,637 for capital outlay, $1,696,291 for maintenance and operation, and $522,977 for miscellaneous expenditures and $319,539 for reserves.

The operating budget is financed completely from water sales, connection fees, and other revenues. The District levies an assessment on land only to reduce bond service.

Included in the General Manager's budget is a recommendation for merit increases for the District's employes. He suggested that between $22,700 and $34,000 be allocated for the raises. Employe raises are distributed on the basis of recommendations by department heads.

Directors will mull over the budget for the remainder of the week.

Dear Editor:
Who decides the assessments of 1911 Act Projects? Spring Valley has a 1911 Act problem that suggests that a Grand Jury investigation is in order . . .despite prior reports that such Projects are not Grand Jury business.

More than a year ago the county gave estimates to property owners on a drainage project on Campo rd. These owners then dedicated property for sidewalks, curbs, and roads for an underground drainage system.

No one was told where the drainage catch-basin would be located. When it was installed it became clogged with trash and a lake of water backed up on nearby property. The county then said that it had the responsibility for damage to county property, but private property damaged by back-up water was not their responsibility. Neither was it their responsibility if a person was injured or drowned in it, they said.

On May 10, when one property owner received his assessment which was about the same as the original estimate, other property owners complained.

On May 18, this property owner got a 50 per cent increase in assessment. Was this a guess or an error? If it was an error, competent men should replace those involved in this shoddy figuring. If outside influence was exerted, this reprehensible practice should be investigated.

Requests for itemized statements have been refused.

Taxpayers should be aware of what can happen to them in 1911 proceedings and be prepared to protect themselves either in the courts or at the polls.

Dear Editor:
A supposedly open meeting is to be held during the month of June to discuss an increase in the budget of the S.V. Fire Dept. budget, to provide an increase in pay and additional employes.

We in this area appreciate their fine work, however we believe that taxes could be reduced and still have the additional employes requested. Any catastrophic fire could be aided by the volunteer firemen.

The quadrupled taxation for the ambulance service that requires two men is unfair to private enterprise. We pay for the county and naval ambulance service and indirectly by the majority who are covered by private insurance that adjoining communities use, where private enterprise provides the service.

Originally this service was for emergency service that by State Law requires the patient be taken to the nearest hospital, namely the Grossmont District Hospital. However, the patient may be taken to the hospital of his choice and even returned from the hospital after his stay. This service is given to any hospital in the county. Let us not forget free enterprise and quadrupled taxation for any service and appear in protest at this meeting. Let's not be fooled that convenience is an emergency.

Yours truly,
Howard R. Kent, M.D.

Dear Editor:
In the recent Senate hearings when ex-General Walker remarked about the questionable loyalty of the Overstreets, he admitted that he had not actually read their books and what he said was hearsay. Considerable ridicule followed.

I would like to comment on the works of these supposed anti-communists. I have read Harry and Banaro Overstreet and in my opinion they have always been sheer socialists in their thinking and recently turned to the "better red than read" theme. They very cleverly imply that the hammer and sickle will inevitable fly over the entire world, so why not learn to live with it? They invariably present,—and very insidiously—a surrender attitude. For anyone who wants to read these works I recommend extreme caution and bear in mind that of any work intended for brainwashing, 2 per cent is considered heavily loaded.

This is not hearsay. Read it and see for yourself.

Respectfully,
G. D. Kindred,

The DIMMER VIEW

(Continued)

We think Doc Burris has a splendid point.

The Pharmacy Board, together with some of the myriad boards, agencies, departments and authorities given substance by the state, should overcome their "control psychosis" and become "aiding agencies" as it was intended by the people, and spelled out in the Constitution.

San Diego's New Plan Is BIG

The City of San Diego has produced a planning study after four years of research that could well be one of the most profitable investments it has made in its future since it bought the mission lands for a couple of pots and a string of beads.

The city's Planning Department, sensitive to blight which follows one suburban area leapfrogging another, has produced a general plan study in depth. It is really big. Even the pages are kingsized (11" x 17") and there are 147 pages in all, replete with documentation maps, graphs, projections and charts. The study sets the guide lines for an "approach to rational growth" as Robert Morrow, associate planner of the Long Range Planning Department, Planning Division of the City Planning Department.

Said Morrow, speaking for Harry Haelsig, City Planning Director, "back east, some of the inappropriately-planned rapid-growth communities are a mile-deep in unsound economic policies and problems. Inefficient and overlapping services spell unnecessary expenses for the citizens. Improperly located commercial districts make it awkward for residents to go to work or to shop.

"The plan," he added, "simply suggests better ways for making living areas happier, shopping districts healthier, and everyday civic functions more convenient and less expensive."

He said the south of Broadway area in San Diego is an example of how blight can strike a community. Centre City was planned as a potential tool for overcoming most of the problems that has grown into that area during the past several years.

"If some of the concepts in our general plan are utilized, similar problems can be averted even beyond the city limit," Morrow said.

The several community plans already existing within the city should be coordinated for greater efficiency in planning, he added.

"A prosperous future is in store for the S.D. city and county. We want to be able to say that failure to utilize all of our geographic resources will not be by default, the result of ignorance. We want to avoid the economy-sapping 'suburban sprawl' that has strangled communities elsewhere in the country," Morrow said.

Quotable Quotes

"I was shocked to learn I had to pay $90 for the first nine days of hospitalization under the proposed medical care for the aged bill in Congress," declared Charles Keener, 71, of Elkhart, Indiana, in announcing he will change his position favoring the King-Anderson bill and will now oppose the measure. Keener is retired, after 51 years of railroading, and is the former local chairman of the Brotherhood of Railroad Trainmen and also the Raiload Yardmasters of North America and holds a life membership in both.

Boy Accidentally Shot With Spear

A Grove boy is sporting a sore left arm this week after being shot with his own speargun over the weekend. Danny Yoder, 14, of 7195 San Miguel st. bled little and had only to have the inner side of his arm sewed up at Grossmmont hospital after the sharp, barbed weapon penetrated up to its hilt—four inches—in his arm.

The sheriff's department was summoned to help the Yoder boy about 3 p.m. Sunday when a friend, Larry Edgar of 8145 Jefferson st., accidentally triggered the underwater shooting device operated by strong elastic bands. Sheriffs called the Lemon Grove Fire Department.

Capt. Mark Foote said firemen found the boy quite calm. They cut away the six-feet long apparatus, leaving only the point in the youth's arm. Then his mother took Danny to the hospital from where he was released about an hour later. It was reported the barbed tip had to be pulled on through the youth's arm in order to remove it.

Mt. Miguel P.T.A. Plans Money Donations; Mrs. Hale New Head

The incoming and outgoing board members of Mt. Miguel High school PTA met at a joint meeting May 28 in the teachers' lounge at the school. Two items that the boards approved to finalize the year's business were a $50 emergency welfare fund to be administered by the school nurse for Mt. Miguel students and $25 to be donated to the San Diego Eye Bank. These sums represent a portion of the profit realized from a series of polio immunizations.

On May 31 the new board members met at a luncheon hostessed by Mrs. Frank Hale, incoming president at the home of Mrs. J. H. Jensen. Mrs. Hale announced that the Mt. Miguel PTA officers and chairmen for 1962-'63 will be as follows:

Mrs. Reon Rauscher, first vice president; Mrs. Richard Fares, second V.P.; Mrs. Charles Spisak, third V.P.; Mrs. Charles McMahon, fourth V.P.; Mrs. Willis Bowersox, fifth V.P.; Mrs. Donald Beebe, recording secretary; Mrs. Clifford Phillips, corresponding secretary; Mrs. Lyle Stumbaugh, treasurer; Mrs. Frew Lower, historian; Don Wilder, auditor; Mrs. George Cremer, parlimentarian; Mrs. Wiley Cornelius, budget and finance; Mrs. Jack Crowningshield, character and spiritual; Mrs. Isabelle McCrae, health; Virgil Duea, citizenship; Mrs. Ray Bierwirth, legislation; Mrs. J. H. Jensen, inside publicity; Mrs. Alf Holmberg, welfare; Mrs. Anthony Codina and Mrs. Ron East, telephone and Mrs. Charles Botzer, area representative.

Spring Valley Residents Warned About Dry Grass

Spring Valley fire chief Frank Berger, urges all resident living within the Spring Valley Local Fire District, to be extremely careful about burning dry grass and brush, and to clear away dry growth from around all buildings. We have an extreme fire hazard, he points out. And be sure to get a burning permit from any of the three Spring Valley fire stations, Chief Berger adds.

There were four fire runs for the S.V. Department during the week of May 29-June 5.

June 1. At 12:56 p.m., to Campo rd. and Agua Dulce, a grass fire covering a small area. Cause has not been determined.

June 4. At 1:15 p.m. to 8746 Tyler St. A fire, which began with children lighting paper at a gas stove, caused little damage to the home of the Larry Doughrity family.

At 1:57, the same day, there was a grass fire in the 2000 block of Sweetwater ave. It is suspected that the fire was caused by children playing with matches.

And on the same day, at about 5:30 p.m., sparks from a trash fire ignited a small patch of dry grass at 939 Gillespie st.

Dell Hubert, 29, of 6133 Severin dr., La Mesa, was taken to Grossmont Hospital on May 29, after he ran his motorcycle into a car in the 500 block Sweetwater ave.

Lemon Grove Congregational Church Has Unique Design

UNIQUE is the word for the design of the new building of the Lemon Grove Congregational church sanctuary on Glebe rd. near Massachusetts and San Miguel streets. Twelve hyperbolic paraboloids are formed on straight line timbers . . . the curve not withstanding.
There will be six sections, such as the one above, when the building is complete. The roof is sprayed-on concrete and the concrete is cured four days. The forms are then lowered and rotated one-sixth of a circle and the process repeated until the circle is complete. This makes the forming process significantly low in cost.

C. J. Paderewski is the architect and Al Blalock, a structural engineer designed the structural shape.
The form-fitting and concrete-spraying will continue for the next five weeks and sidewalk superintendents are invited to argue that the curves are not formed by straight timbers.
The sanctuary will seat 450 people when completed in October.
In photo above workmen can be seen spraying on concrete. Arc at right, strange as it seems, is formed on non-curved timbers.

"VICTORY THROUGH CONFESSION"

The man who makes a public confession of Christ as his personal Savior wins a great victory. Confirmation, in the Lutheran Church, is a public confession of Christ. It is a confession which is the result of growth in the knowledge of Christian teaching through an extended period of instruction. The accumulation of knowledge is not the goal we strive for, but personal appropriation of Christ as Savior.

Grovan Builds New Christian Science Church

Rex Foster, a Lemon Grove general contractor, recently completed a new $124,550 Christian Science Church in La Mesa at Palm and Allison sts. Foster said the edifice is one of the few church buildings completely air-conditioned. It contains 25 tons of equipment for this purpose.

Foster, who built the new Lemon Grove Methodist Church at Golden and Washington as well as additions to San Miguel and Vista La Mesa Elementary schools has been a Grove resident since 1929. He's had an office at 7968 Broadway, L.G. since 1947. He lives with his wife, Hazel at 3025 Rondevoo rd., L.G.

Thomas H. Gould, chairman of the C. S. church building committee in La Mesa said of the new church: "The entire effect of the structure is one of utility coupled with quiet elegance and good taste."

Intelligence, Creativity Come From God, Says Sunday Sermon

"Every house is builded by some man; but he that built all things is God." Paul's declaration to the Hebrews (3:4) will be the Golden Text of the Lesson-Sermon entitled "God the Only Cause and Creator" in all Christian Science churches Sunday.

The spiritual source of intelligence and creativity will be stressed in the sermon, which includes this passage from Isaiah (45:..), "I am the Lord, and there is none else, there is no God beside me: I girded thee, though thou hast not known me."

Gratitude for spiritual growth and progress was the keynote as Christian Scientists from many countries attended the annual meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., last week.

New Zoning Plan Readied For S.V. Area

Bancroft Drive, Olive to Campo Affected By June 22 Hearing

A public hearing on a proposed comprehensive zoning plan for the Spring Valley area will be held by the County Planning Commission at 2 p.m. June 22, in Room 358, Civic Center, 1600 Pacific Highway, San Diego.

The proposed plan comprises 130 acres lying generally along both sides of Bancroft dr. south of Campo rd. and north of Olive dr. The entire area presently is regulated by the Spring Valley Interim Zoning Ordinance. The proposed zoning is quite similar to the present interim zoning, with some changes adjacent to the proposed State Freeway right of way, south of Campo, and along the west side of Bancroft, south of Kenwood dr.

The proposed plan provides R-1-A single-family residential zoning for a large portion of the area, and C and C-2 commercial zones along portions of Bancroft dr. and Campo rd. to provide amply for existing businesses and future shopping needs of this area. R-P residential-professional and R-3 multiple-residential zones are proposed between Campo and the new freeway. R-3 zoning also is proposed along the westerly side of Bancroft in the vicinity of Kenwood and Switzer drives.

Zone classifications shown on the proposed zoning plan are:

R-1-A **Single-Family Residence Zone:** One single - family dwelling on a building site at least 6,000 square feet in area. Crops of all kinds, and a "family supply" of poultry and animals.

R-3 **Multiple-Family Residence Zone:** A one-family, two family, or multiple-family dwelling or dwelling group on a building site at least 6,000 square feet in area, provided there is at least 1,000 square feet of land area for each dwelling unit.

R-P **Residential - Professional Zone:** Multiple dwellings, residential hotels, hospitals, sanitariums, medical and dental offices and related restricted commercial uses.

C **Business Zone:** All uses permitted in the R-3 Zone, plus stores, offices and retail businesses conducted inside buildings. No minimum lot or building site area requirement.

C-2 **Business Zone:** Same as C Zone, plus trailer courts, warehouses, wholesale businesses, and some light manufacturing.

This zoning plan was designed to fit both the present and relatively short-term future requirements of the Spring Valley area. Future development programs may require changes in the plan, and such changes can be made as necessary through the process of zone reclassifications.

At its public hearing on June 22, the Planning Commission will review all requests for changes in the propostd plan and will consider all testimony presented. Following its hearing, the Commission can recommend a zoning plan for this area to the Board of Supervisors which must also hold a public hearing prior to its adoption of a zoning plan.

FOOTHILLS METHODIST HOLDS GROUNDBREAKING

Others taking part were Mrs. Dorothy Penry, chairman of the education commission, and Mrs. Ruth Dyer, Sunday School superintendent and members of the church and Sunday School. The new Education unit, now under construction should be completed by mid-summer, Rev. King said.

Grove Man Retires From Naval Career

LCdr. Reese in 1959

A Lemon Grove naval officer who served on the USS Lexington, the famous aircraft carrier that went down during the Battle of the Coral Sea retired June 1 after 30 years of service. He is Orville F. Reese, LCdr., ret., of 8150 Lincoln st.

Reese served chiefly as an electrical engineering and damage control officer during his naval career. He was in 12 battles and was on three aircraft carriers which sustained damage from the enemy. He was aboard one of them during the Battle of the Philippine Sea.

Since 1950 Resse served as Special Services officer at the Naval Station in San Diego. He signed a contract with the Navy to continue with Special Services as a civilian. Before then, he is taking off enough time to pay his mother and father in Missouri a visit.
